

Dear Sirs, I have had X-M Radio for almost 2 years now. I have had the pleasure of listening to many different kinds of programming that I would have otherwise missed. The reason I have X-M is so I can have the programming I want to listen to, not what someone else is trying to put out.

I also like the privilege of being able to find a different channel if the one I am listening to doesn't suit me. I pay for that privilege every month, so I believe I have a 1st amendment right to have the channels I want. Without having the government trying to dictate to me what they want me to hear.

To the people that have a problem with certain channels, I have a solution, there are 90+ more out there. If that doesn't make them happy, then cancel their subscription to X-M.

This is a freedom of choice. No one said they have to listen to it, or subscribe to it. It is their choice!!! As for me and my 2 sons we will gladly continue to listen and subscribe for many many more years!!!

Sincerely,
Bonnie Berscheid
